

Presentations

- 1) "Studies on properties of concrete with various water proofing compounds" at TRACE organized by Department of Civil Engineering SNGCE, 2016
- 2) "Effect of silica fume on strength and durability parameters of concrete"
- 3) "Damage study in concrete subjected to various loading monitoring the surface resistivity" at CEASIDE 2010 ICETEST 2020 organized by GEC, Thrissur, December 2020.
- 4) "Comparative study on effect of soft soil stabilization using coir fibres and polypropylene fibres" at TRACE organized by Department of Civil Engineering SNGCE, 2016.
- 5) "Strength and behaviour of concrete with different types of fibre" at ICETEM'14 Organized by SNGCE, December 2014.
- 6) "Data Analytics in Concrete Industry- A Review" at ICMIRD'22 organized by SNGCE, April 2022.
