

Publications

1. Parametric study of concrete filled steel tube presented in National Conference on Recent Advances in Civil Engineering in 2014.
2. Non uniform corrosion of carbon cure RC beam and conventional RC beam published in IRJET journal volume 4 issue 4 May 2015.
3. Study on concrete filled steel tube presented in International Conference on Emerging Trends in Engineering and Management 2016.
4. Study of outrigger systems for high rise buildings published in International Journal of Innovative Research in Science, Engineering and Technology, volume 5, issue 8 August 2016
5. A comparative study on the strength behavior of circular stiffened concrete filled steel tube and concrete filled aluminium alloy tube published in IRJET journal volume 5 issue 5 May 2018. Columns
6. Analytical study on different types of steel slit dampers published in IRJET journal volume 6 issue 5 May 2019
